## Nicklaus Yao

-> Database Schema Design

-> Supabase + ENUM Type Set Up

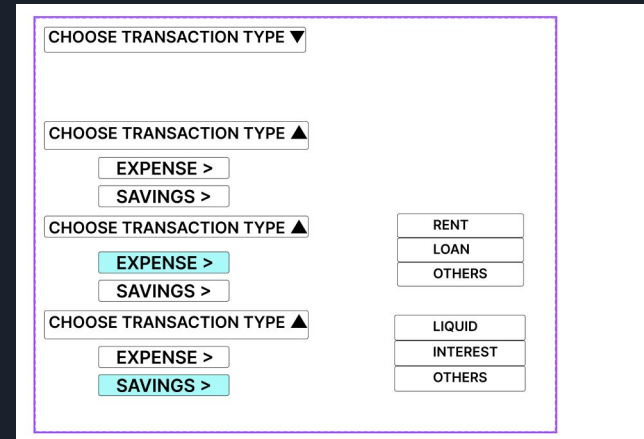

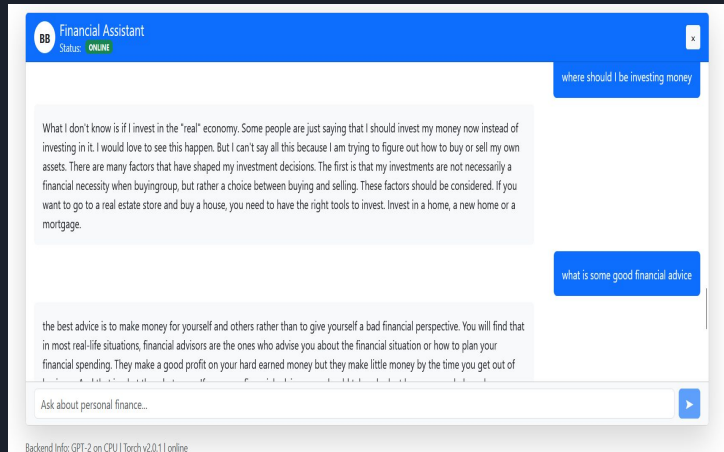

-> Researching Row Level Security (RLS)  
for database security

# Individual Contributions

## Mansur Mahdee

- > Designed Transaction Page on Figma
- > Design a complete Backend and Frontend For a chatbot
- > Trained and Fine tune AI model to make the chatbot fully functional

# Individual Contributions

## Mansur Mahdee

### Challenges:

- > Finding a suitable AI model
- > Looking for clean and oriented Datasets
- > Space and CPU power issues.

### Remaining Tasks:

- > Integrating Chatbot into all functional web pages
- >
